Governments-Strong. Stocks.-Stocks opened irregular, but soon developed strength, and prices ro e 1 to 11 per cent, the latter being Jersey Central, which sold up to 804- Reading advanced to 434. Near midday there was considerable pressure to sell Grangers. The selling movement in these stocks continued until nearly 2 p. m., Northwestern breaking from 1141 to 1113, St. Paul from 84 to 82, Omaha preferred from 95 to 921; Rock Island from 1197 to 1181 and Burlington and Quincy from 1211 to 1207. The break was due to rumors of the tripartite association having been disrupted. Later iu 13 00@17 00. the day this report was pronounced to be without foundation. It was also reported, but subsequently denied that parties had sold Northwestern in anticipation of the ratification of the proposed issue of the Northwestern to take the sureties of the Blair system of roads, to be voted on at the Northwestern stockholders' meeting June 26. After 2 p. m. Oregon Transportation became active and rose 21 to 1181. This checked selling in the remainder of the list and most of the stocks showed a material advance, St. Paul advancing to 823, Omaha preferred to 933, Missouri Pacific to 82, and Union Pacific to 672. The market left off steady. There was a good borrowing demand for stocks dur-

GRAIN AND PROVISIONS.	

REVIEW OF THE WBEK. CHICAGO, April 26.-The rise in wheat and corn the past week was as remarkable and rapid as the tumble two weeks ago. The market opened strong the first of the week. There was an active demand for wheat from frightened shorts and new born bulls who bought heavily on reported damage to growing crops by late storms, firmer cables, and heavy purchases by Kershaw, supposably on account of Armour. Traders tumbled over each other in their efforts to buy. The June option sold at 90 and 91c at the same time in the pit. Dows and Walker were especially 5 25@5 75. prominent as purchasers, taking 500,000 bushel lots freely. Everything seemed to indicate a boom, when Adams, Kent, Levter and other heavy longs took advantage of the opportuni ty to unload big lines and many of the shorts having covered the feeling became easier. Here the sec stary of the board of trade posted the visible supply figures, which showed a decrease of over one and a half mildion bushels in wheat, and nearly as much in corn. This was the signal for a bull raid by a clique of strong operators headed by Hobbs, Wright, Cudahy and Spense. Private cables were received at the same time, reporting for eign markets stronger and higher. Immediately the shorts were in a panic and amid much ex citement under a rush to cover values ad-vanced over 4c from the lowest point. Later a sag was caused by the unloading of the syn-dicate, who were evidently working only for a scalp, but this was offset by the posted state-ment that cable reports of wheat on passage from Australia were about two million bushels larger th in the actual abipments which prac-tically reduced the visible supply to the ex-tent named. The situation now appears greatly improved, the export demand having increased materially with a probability that the visible supply from this time forward will show a more rapid decrease than formerly, and now that navigation has a commet reasonable now that navigation has opened reasonable rates of freight are assured. The June option is selling at a sufficient premium to allow eapitalists to carry the large stocks through to June 1st, so there will be no particular pressure from cash stuff. The spring is cold and backward, and reports from winter wheat sections as to the growing crops are not as en-

couraging as a mouth ago.

Corn has ruled comparatively quiet, sympathizing with the fluctuations in wheat, but only within a very narrow range. Trading has been moderate with a fair volume of outside buying, chiefly from the interior. The crowd here as well as seaboard speculators are very bearish and disposed to sell freely on all hard places. The market is largely oversold and places. The market is largely oversold and conservative traders do not regard short sales as entirely safe. Receipts are moderate, stocks small, and low grades in good shipping demand, all offerings being abscroed daily. Railroad of stals say there is very little corn at country points to come forward and they are almost unanimously of the opinion that prices will rule higher this summer.

Provisions have ruled quiet, duit and

slumpy. There was in fact nothing newlyhie? would tend to encourage an appreciation of to induce any decided break. Receipt a of hogs have been large, the quality better and prices lower, while the co-sumptive semand for pork, lard and rice is very anderate. There are few sutside orders either way. спісхоо рворисв.

CHICAGO, April 27.-11:15, h. m.-There was an easy opening on 'change this morning and prices showed a downward tendency. June wheat sold down to 92%, and then began o recover the lost, ground. After 10 o'clock prices rose ratadly, and another remarkable com occur, ed in wheat and corn, the former advancing to the best prices of yesterday, and later touching the highest figure in six weeks, June wheat touched 95c. June corn 57kc, which are the quotations at this hour. July pork is 817 50; July lard, \$8 80.
